Course content

Content module 1: Theoretical foundations of critical thinking

Topic 1. Fundamentals of critical thinking

Topic 2. Basic formal-logical laws and method of formalization

Topic 3. Conceptual apparatus of reasoning

Topic 4. Theory of inferences

Content module 2. Application of critical thinking technology to solve management problems

Topic 5. Critical thinking and the decision-making process

Topic 6. Basic methods of generating ideas

Topic 7. Solving problems based on critical thinking

Teaching environment (software)

Multimedia projector, S. Kuznets PNS, Corporate Zoom system

Assessment system

Assessment of students' learning outcomes is carried out by the University according to the cumulative 100-point system.

Current control is carried out during lectures and practical (seminar) classes and aims to assess the level of students' readiness to perform particular tasks, and is assessed by the amount of scored points.

The maximum amount during the semester – 60 points; the minimum amount required is 35 points. Final control is carried out at the end of the semester in the form of an exam (the maximum amount is 40 points, the minimum amount required is 25 points).

Current control includes the following assessment methods: presentation, written tests.

More detailed information on assessment and grading system is given in the technological card of the course.

Course policies

Teaching of the academic discipline is based on the principles of academic integrity.

Violation of academic integrity includes academic plagiarism, fabrication, falsification, cheating, deception, bribery, and biased assessment.

Educational students may be brought to the following academic responsibility for breach of academic integrity: repeated assessment of the corresponding type of learning activity.

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, self-study is given in the Course program.
