Assessment system of learning outcomes

Current control carried out during the semester during lectures, practical, seminars, and is estimated by the sum of the points scored (maximum amount - 100 points); final / semester control, conducted in the form of final control work as a discount on the teacher's initiative, taking into account the current control over the corresponding content module, and aims at an integrated assessment of the student's learning outcomes after studying the material from the logically completed part of the discipline content module. A student should be considered certified if the sum of the points obtained from the results of the current and final control over the semester is equal or exceeds 60.

More detailed information on assessment is given in the technological card of the discipline.
